

Jean Paniagua

Full Stack Engineer

Cartago, Costa Rica · jeanpaniaguab@gmail.com · jeanpaniagua.dev · www.linkedin.com/in/jean-carlo-paniagua-bastos

SUMMARY

Full Stack Engineer with 5+ years in consulting, embedded in client teams across property management, insurance, and home services. Works end to end with Vue 3, Next.js, Node.js, NestJS, and GraphQL, with strong third-party API integration experience and a track record of more than doubling team delivery velocity through spec-driven, AI-augmented development.

EXPERIENCE

Consultant Full Stack Developer, Gorilla Logic

Goosehead Insurance · Dec 2025 to Present · Costa Rica · Remote

- Delivered the Mercury Auto integration, covering API work, UI flows, and data mapping.
- Delivered the Progressive Home integration, from API work through the customer-facing UI.
- Worked in a spec-driven development workflow with AI tooling (Cursor, Claude) as the team more than doubled sprint throughput, from under 50 to over 100 story points.

Stack: Next.js, React, TypeScript, Node.js, Prisma, Redis, Salesforce, Playwright

Consultant Full Stack Developer, Gorilla Logic

PURE Property Management · Jul 2022 to Nov 2025 · Costa Rica · Remote

- Worked on the core team responsible for the platform's entities, communication flows, and major operational processes.
- Implemented LaunchDarkly feature flag system integrated with Segment, enabling product to toggle features at the corporation, brand, or individual user level.
- Helped build Twilio and Gmail API integrations that power in-app communication between property managers, owners, and residents.
- Developed background data jobs for automated cleanup and table updates across the platform.

Stack: Vue 3, TypeScript, Apollo, Node.js, NestJS, GraphQL, PostgreSQL, Tailwind

Consultant Frontend Developer, Gorilla Logic

ICON Technology · Mar 2022 to Jun 2022 · Costa Rica · Remote

- Built an interactive marketing site showcasing ICON's portfolio of home designs produced with their proprietary 3D-printing technology.

Associate Full Stack Developer, Gorilla Logic

Gorilla Logic Internal · Jul 2021 to Jul 2022 · Costa Rica · Remote

- Built reusable, theme-independent Vue 3 components with clean separation between behavior and presentation.

Full Stack Developer Intern, Gorilla Logic

HomeAdvisor / Angie's List (now Angi) · Feb 2021 to Jul 2021 · Costa Rica · Remote

- Contributed to the frontend and backend integration work merging two large consumer platforms.
